

Features of interactive electronic whiteboard

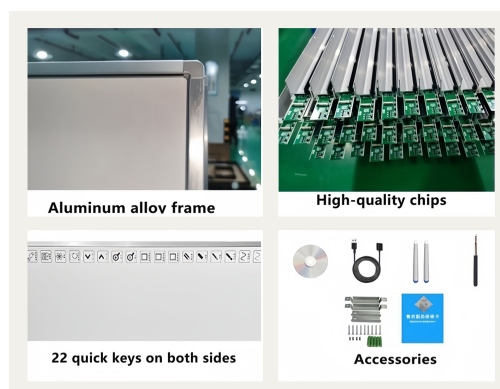

23. Okt. 2025

Multifunctional all-in-one: Integrates computer, large screen, audio system and other functions, simplifying conference equipment.

Smart whiteboard: 10-point touch control, 10ms response time, smooth writing, supports quick annotations and erasing.

Efficient Office: Saves time and space, enhances meeting efficiency, suitable for various scenarios.

High-quality aluminum alloy: Sandblasted and oxidized treatment, highly wear-resistant and corrosion-resistant.

Immersive visual experience: Ultra-narrow bezels maximize the display area.

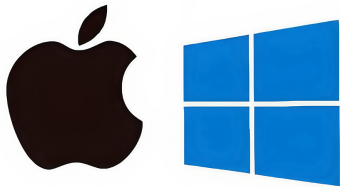

Advanced chip: High-precision touch, quick response, LED chip lifespan up to 60,000 hours, sensor with 10% discontinuous damage still allows

touch control.

Quick keys: 22 keys on both sides, efficient operation, supports custom patterns.

Supports wall-mounted and mobile bracket installation. Choose the appropriate installation method based on actual usage conditions. Wall-mounted installation, stable and secure, saves space, does not occupy floor space, and makes the environment more streamlined. Mobile bracket installation, flexible and mobile, can quickly adjust height and angle, and the operation is very convenient.

Windows7/8/10/11/Windows XP /Mac OS

Broad compatibility: Supports multiple operating systems, including Windows 7, Windows 8, Windows 10, Mac OS, and Windows XP. Seamless connection: No complex setup required, ensuring the device can be quickly connected and operate stably. Cross-platform compatibility: Suitable for various scenarios such as education, business, and industry, and compatible with various hardware devices.
